Can be installed on the underfloor heating system.

Usage:

Public places like hotels, offices, schools, medical practices, gyms, shops. Residential use like kitchen, bathroom, living room etc.

INSTALLATION

AZM`'s flooring should be set up by qualified professional installer.
Use adhesive which is qualified for vinyl floorings.
The flooring should be installed for dry, clean and even surface.

The instructions of the adhesive producer should always be followed.
Although Korpela`s flooring is water resistant, it's not allowed to install on wet rooms.

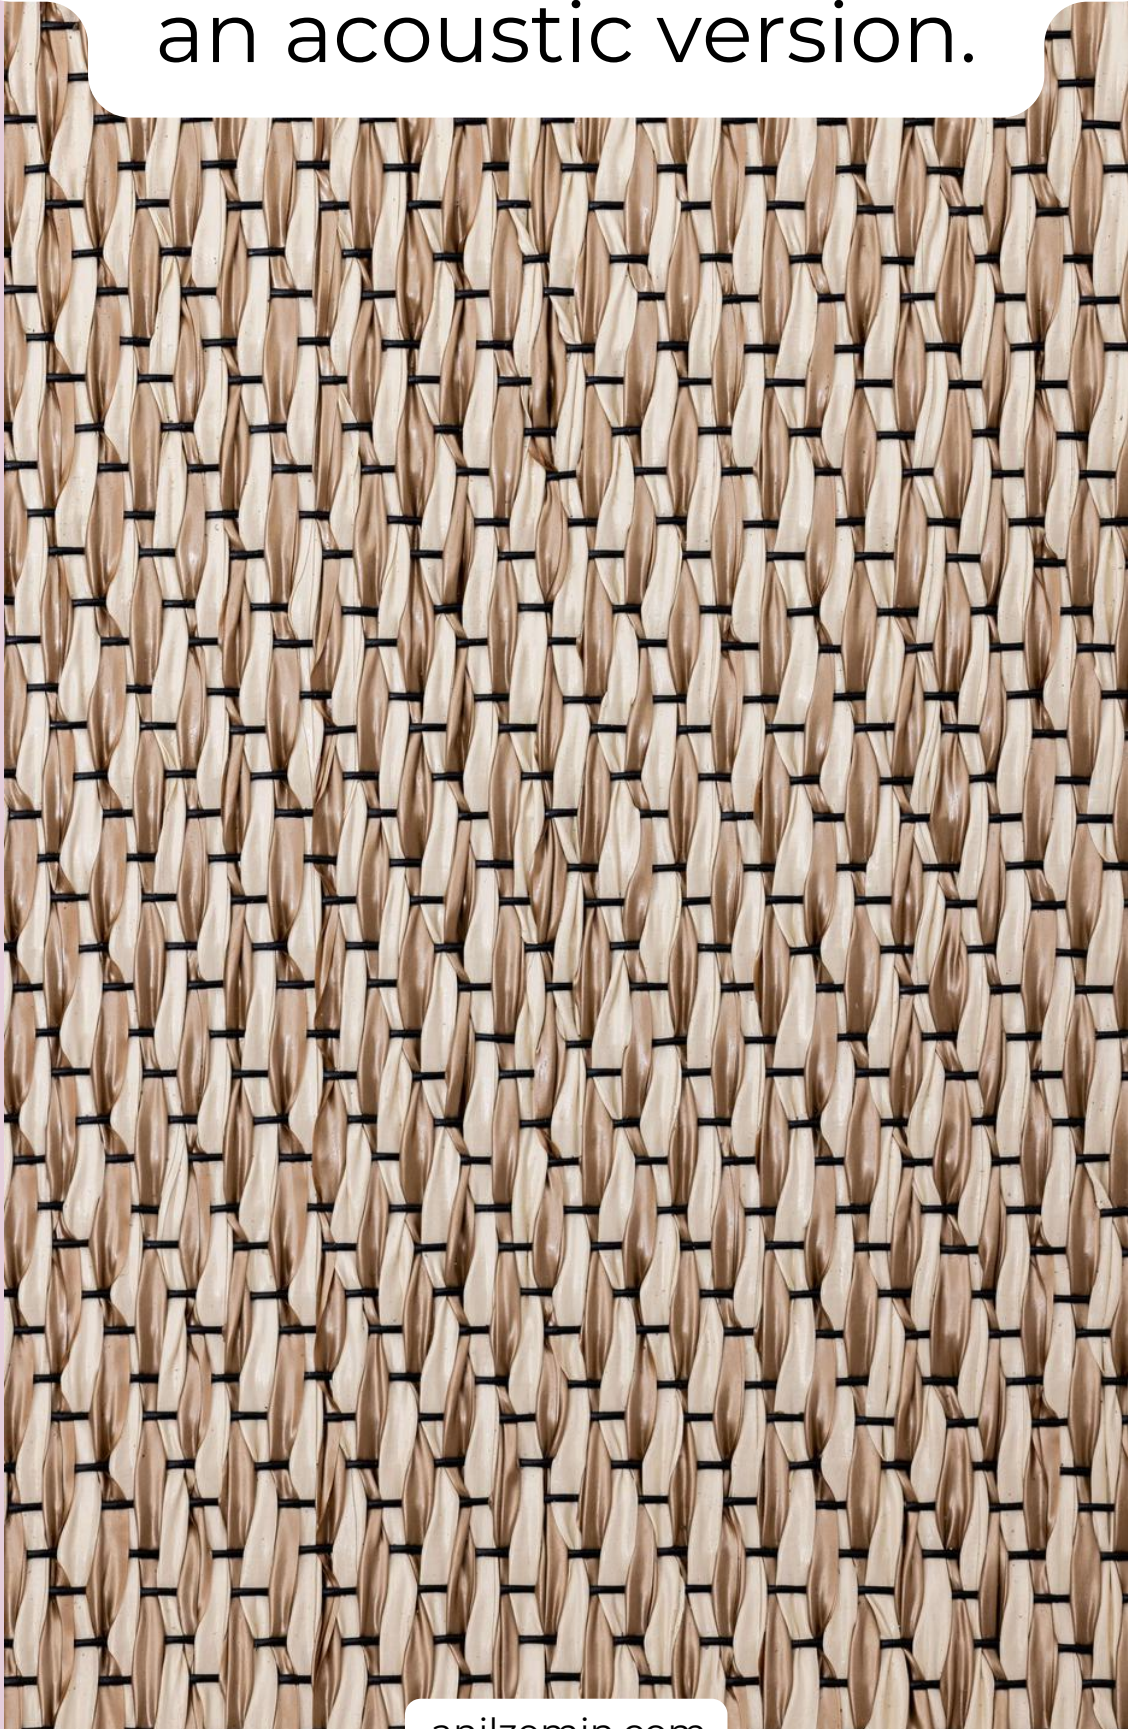

MAINTENANCE

AZM`'s flooring is easy to keep clean.
The vacuuming is recommended for a regular daily or weekly cleaning.
Cleaning with a mop is also acceptable but mop shouldn't be too wet.

The entrance cleaning system (carpet) is recommended in order to avoid most of the dust and dirt. We do not recommend using any solvent based detergent.

More detailed cleaning instructions can be asked from manufacturer.

All floors also available in
an acoustic version.

Interested in our floors?

Feel free to contact us,
and we will soon talk more
about your needs,
and do our best to fulfill them.
